And whereas in the tract consisting of the villages mentioned in Column (3) of the schedule annexed hereto situated in the Taluka specified in the corresponding entry in Column (2) thereof, there is failure of crops owing to inadequate and untimely rainfall and the cropwise yield per acre is found to be as shown below :

Part-I-C. (Villages where full Remission of current years's L. R. is granted),

—Nil—

In the remaining 48 villages of this taluk the average cropwise yield is found to be above 50 per cent and below 66 6 per cent. The current year's Land Revenue and half of suspended arrears of past year is recoverable in these villages But the Tahsildar and Assistant Commissioner, Jamkhandi report that though the cropwise yield more than 50 per cent the general condition is not very good and recommend that only the current year's land revenue be recovered as otherwise the agriculturists would be put to hardship.

It is therefore ordered in respect of these villages that the Consolidated Land Revenue together with the half of the suspended arrears should be put down as demand but only the current year's Land Revenue should be received. This however is subject to approval by the State Government.

Part-II : Resuspension of Suspended L. R. of the previous years.

Orders for resuspension of suspended Land Revenue of previous years will be issued subsequently on receipt of instructions from Government, which have been sought for.
